REFERENCES

References should include all the books, research papers, journals, websites, reports, and other study materials used during the development of the project.

Basic Guidelines

- All ideas, concepts, text, and data taken from other sources must be properly cited.
- Every reference cited in the project should be included in the References section.
- References should be arranged in alphabetical order or according to the prescribed citation style.
- Use a consistent referencing format throughout the synopsis.
- For online sources, mention the website name and URL along with the date of access, wherever required.
